Subject: Protect my air and water

Mr. Pruitt,

I am writing to you today because you are the leader of the organization for the protection of our land air and water.

From your website "Born in the wake of elevated concern about environmental pollution, EPA was established on December 2, 1970 to consolidate in one agency a variety of federal research, monitoring, standard-setting and enforcement activities to ensure environmental protection. Since its inception, EPA has been working for a cleaner, healthier environment for the American people."

Now more than ever we should be concerned. I care about our natural world and the legacy we leave for our children. Do not destroy and sacrifice our children for selfish and regressive reasons.

Defunding this organization that you lead is not only foolish but embarrassing as a world leader. Leave a legacy for your family that you can be proud of.

Cassie Todd, DVM
